

INDEX TO VOLUME 38

AUTHORS INDEX*

A

- ABELL, LIESE LEWIS. (See Davidson, Abell, and Kendall (Proc.), 462*)
- ACKERMAN, A. J. (See Moyer and Ackerman), 799*
- ADOLPH, WILLIAM. (See Lack, Adolph, Ralston, Leiby, Winsor, and Griffith), 654
- AGRESS, CLARENCE M. (See Rosenberg and Agress), 593
- AHN, BERTIL v., AND GÖHLE, OLLE. A case of angina pectoris precipitated chiefly by tobacco smoking and meals, 775
- AKMAN, L. (See Stamler, Bolene, Katz, Harris, Silber, Miller, and Akman) (Proc.), 466*
- ALFIN-SLATER, R. (See Deuel, Marx, Alfin-Slater, and Marx) (Proc.), 463*
- ALLEN, A. W., AND DONALDSON, G. A. Venous thrombosis and pulmonary embolism, 639*
- ALLEN, E. V. (See Morgan, Allen, and MacCarty), 444*
- ALTO, P. (See Thomas, Alto, and Garland), 311*
- ALTSCHUL, RUDOLF. Histology of infarcted heart muscle (Proc.), 473*
- ALTSHULER, S. S., HOFFMAN, K. M., AND FITZGERALD, P. J. Electrocardiographic changes in diphtheria, 137*
- AMROMIN, G. D., SCHLICHTER, J. G., AND SOLWAY, A. J. L. Medionecrosis of the aorta, 639*
- ANGLE, R. G. (See Ferraro and Angle), 315*
- APPERLY, F. L., AND CARY, M. K. The control of circulatory stasis by the electrical stimulation of large muscle groups, 448*
- ARATA, JUSTIN E. (See Weinstein and Arata), 781
- ASHWORTH, C. T., AND HAYNES, D. M. Lesions in elastic arteries associated with hypertension, 310*
- ASSALI, N. S. (See Brust, Assali, and Ferris), 927*
- ATTYAH, A. M. (See Hamilton, Riley, Attyah, Cournand, Fowell, Himmelstein, Noble, Remington, Richards, Jr., Wheeler, and Witham), 314*

B

- BAGEANT, W. E., AND RAPEE, L. A. The treatment of pulmonary embolus by stellate block, 151*
- BAHNSON, HENRY T., COOLEY, ROBERT N., AND SLOAN, ROBERT D. Coarctation of the aorta at unusual sites, 905

- BAKER, ROGER D., AND KENT, SIDNEY P. Nature of the hyaline material in arteriosclerosis of kidney (Proc.), 470*
- BALDWIN, DAVID. (See Taylor, Baldwin, and Haas) (Proc.), 464*
- BALKIN, S. S., AND GOOTNICK, A. The effects of Dicumarol on the electrocardiogram, 145*
- BARKER, JOSEPH M., AND VALENCIA, FERNANDO. The precordial electrocardiogram in incomplete right bundle branch block, 376
- BARKER, N. W. (See Parker and Barker), 636*
- BARNES, C. G., FATTI, L., AND PRYCE, D. M. Arteriovenous aneurysm of the lung, 446*
- BARNES, D. W. H., LOUITT, J. F., AND REEVE, E. B. A comparison of estimates of circulating red blood cell volume given by the Ashby marked red cell method and T 1824 hematocrit method in man, 630*
- , —, AND —. Observations on the estimate of the circulating red blood cell volume in man given by T 1824 and the hematocrit, with special reference to uncorrected dye loss from the circulation, 631*
- BATTERMAN, R. C. (See DeGraff, Batterman, and Rose), 626*
- BAYGIN, R. (See Soulie, Michel, and Baygin), 632*
- BEAN, D. M. (See Kergin, Bean, and Paul), 628*
- BECHGAARD, P. Paroxysmal ventricular fibrillation with recovery, 308*
- BECK, C. S. Revascularization of the heart, 624*
- BECKER, G. H. (See Necheles, Meyer, and Becker) (Proc.), 472*
- BEEBE, RICHARD T., AND MENEELY, JOHN K., JR. *Brucella melitensis* endocarditis, 788
- BEHRMANN, V. G. (See McClure, Behrmann, and Hartman), 623*
- BELL, G. H. (See Lazarus, Munro, and Bell), 309*
- BENJAMIN, ZACHARY H. Duration of the Q-T interval in normal pregnant women, 119
- BENNETT, I. L., JR., AND HYEMAN, A. Paroxysmal hypertension associated with tabes dorsalis, 797*
- BENNETT, W. A. (See Cluxton, Jr., Bennett, and Kepler), 452*

An asterisk () after a page number indicates the reference is an abstract and not an original article.

- BERENSON, G. Value of routine fluorograms as a measure for detecting cardiac abnormalities, 798*
- BERG, BRUCE M. (See Hein and Berg), 433
- BERG, W., DELIUS, L., AND SCHILDGE, E. Hypnosis and venous pressure, 309*
- BERGMAN, H. C. (See Prinzmetal, Corday, Bergman, Schwartz, and Spritzler), 445*
- (See Simkin, Bergman, Silver, and Prinzmetal), 310*
- BERLIN, PERLA. (See Morrison, Berlin, and Gonzalez) (Proc.), 477*
- (See Morrison, Chaney, Gonzalez, and Berlin) (Proc.), 477*
- BERRETA, J. A. (See Etala and Berreta), 313*
- BETTMAN, R. B., AND TANNENBAUM, W. J. Herniation of the heart, 925*
- BEVANS, MARGARET, DAVIDSON, JACK D., AND KENDALL, FORREST E. The pathology of early lesions in experimental canine arteriosclerosis (Proc.), 462*
- (See Steiner, Kendall, and Bevans), 34
- BINE, R., JR., AND FRIEDMAN, M. Observations concerning the effects of blood upon the action of a digitalis glycoside, 796*
- BING, R. J., HAMMOND, M. M., HANDELSMAN, J. C., POWERS, S. R., SPENCER, F. C., ECKENHOFF, J. E., GOODALE, W. T., HAFKENSCHIEL, J. H., AND KETY, S. S. The measurement of coronary blood flow, oxygen consumption, and efficiency of the left ventricle in man, 1
- HANDELSMAN, J. C., CAMPBELL, J. A., GRISWOLD, H. E., AND BLALOCK, A. The surgical treatment and physiopathology of coarctation of the aorta, 623*
- BJÖRKENHEIM, G. (See Frisk, Hammarström, Lagerlof, Werkö, Björkenheim, Holmgren, and Larsson), 934*
- BLACK, BOYD K. (See Hicks and Black), 528
- BLACKMAN, N. S., AND HAMILTON, C. I., JR. Serial electrocardiographic changes in young adults with acute rheumatic fever, 152*
- BLACK-SCHAFFER, BERNARD. (See Race and Black-Schaffer), 501
- BLALOCK, A. (See Bing, Handelsman, Campbell, Griswold, and Blalock), 623*
- Surgical procedures employed and anatomical variations encountered in the treatment of congenital pulmonic stenosis, 793*
- BLAND, E. F. (See Wang, Bland, and White), 451*
- BLOOD, D. W., AND PATTERSON, M. C. Effect of aminophyllin on the coagulation of human blood, 628*
- BLOOMFIELD, R. A., RAPOPORT, B., MILNOR, J. P., LONG, W. K., MEHANE, J. G., AND ELLIS, L. B. The effects of the cardiac glycosides upon the dynamics of the circulation in congestive heart failure, 156*
- BOLENE, C. (See Katz, Horlick, Rodbard, Stamler, and Bolene) (Proc.), 465*
- (See Stamler, Bolene, Katz, Harris, Silver, Miller, and Akman) (Proc.), 466*
- BOLLMAN, J. L. (See Salassa, Bollman, and Dry), 929*
- BOOKMAN, J. J. (See Megibow, Pollack, Megibow, Bookman, and Osseman) (Proc.), 468*
- BOWLEY, C. C. (See Mowbray and Bowley), 146*
- BOYD, E. J., AND WARNER, E. D. Effect of vitamin K on Dicumarol-induced hypoprothrombinemia in rats, 930*
- BRADFIELD, JAMES Y., JR. (See Hejtmancik, Bradfield, Jr., and Miller), 757
- BRIGGS, A. P., FOWELL, D. M., HAMILTON, W. F., REMINGTON, J. W., WHEELER, N. C., AND WINSLOW, J. A. Renal and circulatory factors in the edema formation of congestive heart failure, 928*
- BRONSTEIN, J. The P wave in precordial leads in chronic bronchopulmonary disease, 312*
- BROWN, F. (See Rodbard, Brown, and Katz), 863
- BROWN, G. E., CLAGETT, O. T., BURCHELL, H. B., AND WOOD, E. H. Preoperative and postoperative studies of intraradial and intrafemoral pressures in patients with coarctation of the aorta, 634*
- BROWN, HELEN BENNETT, AND PAGE, IRVINE H. The effect of graded dosages of iodide on plasma and liver cholesterol of normal, cholesterol-fed and thyroidectomized rabbits (Proc.), 479*
- BROZEK, J., CHAPMAN, C. B., AND KEYS, A. Drastic food restriction: effect on cardiovascular dynamics in normotensive and hypertensive conditions, 140*
- BROZEK, JOSEF. (See Simonson, Brozek, and Keys), 407
- BRUST, A. A., ASSALI, N. S., AND FERRIS, E. B. The evaluation of neurogenic and humoral factors in blood pressure maintenance in normal and toxemic pregnancy using tetraethylammonium chloride, 927*
- BURCH, GEORGE E. (See Conway, Cronvich, and Burch), 537
- BURCHELL, H. B. An evaluation of esophageal electrocardiograms in the diagnosis of healed posterior myocardial infarction, 794*
- (See Brown, Clagett, Burchell, and Wood), 634*
- BURCHELL, HOWARD B. (See Edwards, Douglas, Burchell, and Christensen), 205
- BURFORD, T. H. (See Carson, Burford, Scott, and Goodfriend), 930*
- BURNS, R. A., JR., JASPER, W. H., AND WAKERLIN, G. E. The effect of crude renal extracts and purified renin on vascular lesions in experimental malignant renal hypertension (Proc.), 478*

C

- CAHILL, G. F. Pheochromocytomas, 154*
- CAMPBELL, D. A. (See Smith and Campbell), 793*
- CAMPBELL, J. A. (See Bing, Handelsman, Campbell, Griswold, and Blalock), 623*
- CARSON, M. J., BURFORD, T. H., SCOTT, W. G., AND GOODFRIEND, J. Diagnosis of pulmonary stenosis by angiocardiology, 930*
- CARTER, R. A. (See Thorner, Carter, and Griffith), 641
- CARY, M. K. (See Apperly and Cary), 448*
- CHANEY, ALBERT L. (See Morrison, Chaney, Gonzalez, and Berlin) (Proc.), 477*
- CHAPMAN, C. B. (See Brozek, Chapman, and Keys), 140*
- CHRISTENSEN, N. A. (See Edwards, Christensen, Clagett, and McDonald), 633*
- CHRISTENSEN, NORMAN A. (See Edwards, Douglas, Burchell, and Christensen), 205
- CLAGETT, O. T. (See Brown, Clagett, Burchell, and Wood), 634*
- (See Edwards, Christensen, Clagett, and McDonald), 633*
- (See Wakim, Slaughter, and Clagett), 634*
- The surgical treatment of coarctation of the aorta, 634*
- CLARK, THOMAS E. (See Mahanna, Clark, and Kissane), 301
- CLUXTON, H. E., JR., BENNETT, W. A., AND KEPLER, E. J. Anterior pituitary insufficiency (panhypopituitarism-Simmonds' disease), pituitary myxedema and congestive heart failure (myxedema heart); report of a case and findings at necropsy, 452*
- COHEN, H., AND HARRISON, C. V. Temporal arteritis, 143*
- CONCHA, J. B. (See Gunther and Concha), 933*
- CONWAY, JOHN P., CRONVICH, JAMES A., AND BURCH, GEORGE E. Observations on the spatial vectorcardiogram in man, 537
- COOLEY, ROBERT N. (See Bahnson, Cooley, and Sloan), 905
- CORCORAN, A. C., MASSON, GEORGES, HAZARD, BEECH, AND PAGE, IRVINE H. Vascular lesions in experimental hypertension (Proc.), 464*
- (See Masson, Glasser, Savard, Corcoran, and Page) (Proc.), 479*
- CORDAY, E. (See Prinzmetal, Corday, Bergman, Schwartz, and Spritzler), 445*
- CORRELL, JAMES W. (See Kellner, Correll, and Ladd) (Proc.), 460*
- COSBY, RICHARD S., AND GRIFFITH, GEORGE C. Interatrial septal defect, 80
- COTTRALL, G. E. (See Paterson and Cottrall) (Proc.), 466*
- COURNAND, A. (See Hamilton, Riley, Attyah, Cournand, Fowell, Himmelstein, Noble, Remington, Richards, Jr., Wheeler, and Witham), 314*

- COURTIER, S. R., FELSON, B., AND MCGUIRE, J. Familial interauricular septal defect with mitral stenosis (Lutembacher's syndrome), 795*
- CRAGAN, M. D. (See Dolgopel and Cragan), 637*
- CRONVICH, JAMES A. (See Conway, Cronvich, and Burch), 537
- CUSICK, G. (See Green, Johnson, Lobb, and Cusick), 136*

D

- DALE, ANTHONY D. (See Wolffe, Digilio, Dale, McGinnis, Donnelly, Plungian, Sprowls, James, Einhorn, and Werkheiser) (Proc.), 457*
- D'ALTON, C. J., DARLING, R. C., AND SHEA, E. The insensible loss of water in congestive heart failure, 795*
- DARLING, R. C. (See D'Alton, Darling, and Shea), 795*
- DAUBER, D., HORLICK, L., AND KATZ, L. N. The role of desiccated thyroid and potassium iodide in the cholesterol-induced atherosclerosis of the chicken, 25
- DAVIDSON, JACK D., ABELL, LIESE LEWIS, AND KENDALL, FORREST E. Serum lipids in experimental canine arteriosclerosis (Proc.), 462*
- (See Bevans, Davidson, and Kendall) (Proc.), 462*
- (See Kendall, Meyer, and Davidson) (Proc.), 474*
- DAVIS, W. M. (See Herring and Davis), 925*
- DAYRIT, C. (See Gold, Modell, Kwit, Shane, Dayrit, Kramer, Zahm, and Otto), 307*
- DEGRAFF, A. C., BATTERMAN, R. C., AND ROSE, O. A. Digitoxin: its evaluation for initial digitalization of the patient with congestive heart failure, 626*
- DELIUS, L. (See Berg, Delius, and Schildge), 309*
- DEMUTH, W. E., AND RAWSON, A. J. Pseudomonas septicemia and endocarditis, 137*
- DENST, JOHN. (See Swan, Trapnell, and Denst), 914
- DE PALMA, A. F. Scalenus anticus syndrome treated by surgery and skeletal traction, 150*
- DE TAKATS, G., JULIAN, O. C., AND FOWLER, E. F. The surgical treatment of essential hypertension. IV. Case selection and technique as influencing results, 638*
- See also under T

SUBJECT INDEX*

- A
- Abdominal aortic aneurysm, prognosis in, 470*
- Acetylcholine, effect of injection of, into brachial artery of normal subjects and patients with myasthenia gravis, 629*
- use of, in objective determination of circulation time in man, 796*
- Adrenalin, effect of administration of, on circulating red cell volume, 798*
- effects of, in normal and hypertensive patients in relation to mechanism of sustained pressure elevations, 136*
- Air embolism, arterial (Durant et al.), 481
- Alloxan diabetes in rabbit, studies on mechanism of inhibition of experimental cholesterol atherosclerosis in, 460*
- American Heart Association, Inc., 158, 320, 453, 640, 800, 941
- annual meeting, June 22-25, 1950, 640, 941
- Arteriosclerosis, American Society for Study of, 453
- electrocardiography, course in, 160
- Executive Committee meeting, 800
- Gerontological Society, annual meeting of, 453
- Gold Award given at annual dinner, 159
- grants for research in cardiovascular disease, 320
- grants-in-aid, additional, 320
- grants-in-aid for research, 800
- Hawaii Heart Association admitted to AHA; Board approves \$6,000,000 goal for 1950, 160
- Heart Associations, new affiliated, 640
- 1950 Heart Campaign, A.W. Robertson chairman of, 800
- High Blood Pressure, American Foundation for, becomes section on scientific control, 320
- International Congress in 1950, 640
- Life Insurance Medical Research Fund, 1950 research grants and fellowships of, 942
- National conference on cardiovascular diseases to be held in Washington in January, 800
- President, Dr. H. M. Marvin elected, at annual meeting in Atlantic City, 158
- Program Committee, 941
- Registry of Cardiovascular Pathology, cases solicited for, 942

- Scientific Council elections, 453
- University of Vermont, refresher course presented at, 454
- American Heart Association, Inc.—Cont'd
- Society for the Study of Arteriosclerosis, proceedings of, 459
- program, 455
- Aminophyllin determination of circulation time, 443*
- effect of, on coagulation of human blood, 628*
- Amyloidosis, primary, of heart (Hulbert and Meyer), 604
- Anastomoses, renal arteriovenous, in rabbits, dogs, and human subjects, 310*
- Anastomosis, venous, pulmonary-azygos, experimental stenosis (Swan), 367
- Anemia and polycythemia, effect of, on digital intravascular blood viscosity, 155*
- role of, in experimental production of heart block and auricular fibrillation in dog (Horlick and Surtshin), 716
- Anesthesia and operation, cardiac mechanism during, in patients with congenital heart disease and cyanosis, 153*
- surgical, control of anoxemia during, with aid of oxyhemograph, 623*
- Aneurysm, aortic, abdominal, prognosis in, 470*
- arteriovenous, of lung, 446*
- dissecting, of aorta with hemorrhagic infarction of spinal cord and complete paraplegia (Scott and Sancta), 747
- occupational, of palmar arch, 147*
- Aneurysms, surgical treatment of (Pratt), 43
- Angina pectoris, case of, precipitated chiefly by tobacco smoking and meals (Ahn and Göhle), 775
- induced by effort, probably grave significance of premature beats occurring in, 795*
- Angiocardiography, diagnosis of pulmonary stenosis by, 930*
- Announcement, 791, 822
- Anoxemia during surgical anesthesia, control of, with aid of oxyhemograph, 623*
- Anoxia during intrathoracic operations, 628*
- Antibrillatory action of coronary dilator drugs, further studies on, 627*
- Antilipfanogen, further studies on action of, in preventing fat deposition, 465*
- Aorta, changes in cutaneous arterioles in arm and leg in coarctation of, 468*
- coarctation of, 316*
- at unusual sites (Bahnsen et al.), 905
- congenital mitral stenosis and systemic right ventricle with associated pulmonary vascular changes frustrating surgical repair of patent ductus arteriosus and (Swan et al.), 914
- dissecting aneurysm of, with hemorrhagic infarction of spinal cord and complete paraplegia (Scott and Sancta), 747

An asterisk () after a page number indicates the reference is an abstract and not an original article.

Aorta—Cont'd

- medionecrosis of, 639*
- near diaphragm, acquired coarctation of, 792*
- pathologic considerations in coarctation of, 633*
- pathology of intrapulmonary arteries and arterioles in coarctation of, associated with patent ductus arteriosus (Edwards et al.), 205
- preoperative and postoperative studies of intradial and intrafemoral pressures in patients with coarctation of, 634*
- rabbit, histologic sequences of degeneration and repair of, following hypothermic injury, 464*
- saddle embolus; report of successful embolectomy, 139*
- sounds and murmurs in coarctation of (Wells et al.), 69
- studies on blood flow in extremities in cases of coarctation of: determinations before and after excision of coarctate region, 634*
- surgical treatment and physiopathology of coarctation of, 623*
- of coarctation of, 634*
- value of roentgen diagnosis in coarctation of, 633*
- Aortic aneurysm, abdominal, prognosis in, 470*
- arch, double, 635*
- embolism, 925*
- valve, calcific disease of, 631*
- wall, silica content of, in arteriosclerosis, 476*
- Aortitis, syphilitic, calcification as diagnostic sign of (Thorner et al.), 641
- Apoplexy, relation of cardiovascular disease to (Hicks and Black), 528
- Arch, aortic, double, 635*
- Arterectomy in treatment of intractable pain following recovery from acute arterial occlusion (Freeman et al.), 329
- Arterial air embolism (Durant et al.), 481
 - disease, functional and organic, nail changes in, 443*
 - hypertension, effect of tetraethylammonium in, 934*
 - intramedullary section of vasomotor pathways as treatment of, 447*
 - occlusion, acute, arterectomy in treatment of intractable pain following recovery from (Freeman et al.), 329
 - pressure gradient, asystolic, as measure of local peripheral resistance, 449*
 - pulmonary (Rodbard et al.), 863
 - tissue, biology of, 461*
- Arteries, coronary, improved method for visualizing, at post mortem (Scott et al.), 881
 - of newborn infants, necrosis in (Gruenwald), 889
 - polyarteritis nodosa of (Sinclair, Jr., and Nitsch), 898
 - elastic, lesions in, associated with hypertension, 310*

Arteries—Cont'd

- intrapulmonary, and arterioles in coarctation of aorta associated with patent ductus arteriosus, pathology of (Edwards et al.), 205
- peripheral, new treatment for relief of obliterative disease of, 924*
- Arteriographic examination of lower extremity, some technical considerations in, 793*
- Arterioles, cutaneous, in arm and leg in coarctation of aorta, changes in, 468*
- pathology of intrapulmonary arteries and, in coarctation of aorta associated with patent ductus arteriosus (Edwards et al.), 205
- Arteriosclerosis, canine, experimental, pathology of early lesions in, 462*
 - serum lipids in, 462*
 - cerebral, principal syndromes associated with, 471*
 - coronary, results of treatment of, with choline, 471*
 - significance of blood serum cholesterol instability in, 478*
 - does it develop by episodic stages? 469*
 - glomerular obsolescence in; identity and significance, 475*
 - observations on experimental production of, in guinea pig, 459*
 - of kidney, nature of hyaline material in, 470*
 - peripheral, use of radioactive sodium in diagnosis of peripheral circulation in, 469*
 - production of, in dogs by cholesterol and thiouracil feeding (Steiner et al.), 34
 - silica content of aortic wall in, 476*
- Arteriovenous fistula of lung, 315*
 - pulmonary, hereditary hemorrhagic telangiectasis associated with, in two members of family, 799*
- Arteritis, temporal, 143*
- Artery, brachial, of normal subjects and patients with myasthenia gravis, effect of injection of acetylcholine into, 629*
 - conus: third coronary artery (Schlesinger et al.), 823
 - disease, coronary, 938 (B. Rev.)
- Artery-aortic septal defect, pulmonary, pulmonary hemangioma with (Erf et al.), 766
- Ashby marked red cell method and T 1824 hematocrit method in man, comparison of estimates of circulating red blood cell volume given by, 630*
- Ataxia, Friedreich's myocarditis and (Hejmancik et al.), 757
- Atherohepatosis, experimental atheromatosis and, in ducks and geese; its reversibility and its clinical implications, 467*
- Atheromatosis development in chicken, relationship of, to amount of cholesterol added to diet (Horlick and Katz), 336

Atheromatosis—Cont'd

- experimental, and atherohepatosis in ducks and geese; its reversibility and its clinical implications, 467*
- hamster as experimental animal for study of, 474*
- rapid production of, in rabbits, 459*
- Atherosclerosis, cholesterol, experimental, in alloxan diabetes in rabbit, studies on mechanism of inhibition of, 460*
- of rabbits, mitotic activity in aortic lesions of, 635*
- cholesterol-induced, in chick, development and metamorphosis of; effects of restricted dietary intake and of cessation of cholesterol feeding, 465*
- of chicken, role of desiccated thyroid and potassium iodide in (Dauber et al.), 25
- experimental, modification of, by means of intravenous detergents, 460*
- fat absorption and; theory on development of atherosclerosis with ageing, 472*
- in diabetes mellitus, study of, 475*
- relationship of blood and liver cholesterol to, in different species, 463*
- spontaneous and cholesterol-induced, and lipid metabolism in chick, studies on; effects of some lipotropic and hormonal factors, 466*
- Atrial septal defect; study of intracardiac shunts, ventricular outputs, and pulmonary pressure gradient (Hickam), 801
- septum, cause and effects of flow through defects of (Hull), 350
- Auricular fibrillation, electric shock and, 636*
- role of anemia in experimental production of heart block and, in dog (Horlick and Surtshin), 716
- flutter during administration of cyclopropane and curare (Mahanna et al.), 301
- tachycardia, paroxysmal, treatment of infant with, 444*
- Auriculoventricular excitation, anomalous, electrocardiograms of unusual pattern in patient with (Roth and Doff), 614
- Axis, electrical, mean, of heart, device for measuring (Topp and Rosenbaum), 130

B

- Bacterial endocarditis, subacute, 935 (B. Rev.)
- penicillin treatment of, 925*
- report of case of reinfection, 927*
- (*Streptococcus faecalis*), recovery from (Hein and Berg), 433
- Beats, premature, occurring in angina pectoris induced by effort, probably grave significance of, 795*
- Bernheim's syndrome, massive hypertrophy of heart with special reference to, 794*
- Biomicroscopy of conjunctival vessels in hypertension (Lack et al.), 654
- Blood and liver cholesterol, relationship of, to atherosclerosis in different species, 463*
- cell, red, circulating, volume, comparison of estimates of, given by Ashby marked red cell method and T 1824 hematocrit method in man, 630*
- observations on estimate of, in man given by T 1824 and hematocrit, with special reference to uncorrected dye loss from circulation, 631*
- volume, comparison of results of measurements of, by direct and indirect techniques, 798*
- coagulation, penicillin, streptomycin, Dicumarol, and; thromboplastic properties of penicillin antibiotics, 148*
- flow, coronary, oxygen consumption, and efficiency of left ventricle in man, measurement of (Bing et al.), 1
- hepatic, and splanchnic oxygen consumption in heart failure, estimation of, 306*
- in extremities in cases of coarctation of aorta, studies on; determinations before and after excision of coarctate region, 634*
- of, in extremities, effects of diathermy on, 153*
- through chambers of heart in human beings, new method for studying: radiocardiography, 445*
- human, effect of aminophyllin on coagulation of, 628*
- infusion, plasma and, following myocardial infarction (Sampson and Singer), 54
- observations concerning effects of, upon action of digitalis glycoside, 796*
- of hypertensive patients, on occurrence of renin in (Mylon and Freedman), 509
- plasma and serum in normal children, electrophoretic patterns in (V); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
- in rheumatic children, electrophoretic patterns of (VI); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
- pressure and heart disease, variation of, with age, and correlation of blood pressure with height and weight, 148*
- and renal circulation of dogs with experimental neurogenic hypertension, effects of repeated oral doses of quinine and quinidine on, 449*
- and tetraethylammonium chloride response, effect of sodium chloride depletion of, in hypertension, 928*
- arterial effect of low sodium diet and rice diet on, 934*
- maintenance in normal and toxemic pregnancy using tetraethylammonium chloride, evaluation of neurogenic and humoral factors in, 927*

- Blood pressure—Cont'd
 radial or brachial intra-arterial, alterations of, and of electrocardiogram induced by tilting, 144*
 supply to lungs, experimental approach to problem of increasing, 446*
 venous, rate of flow of, in legs measured with radioactive sodium 932*
 viscosity, intravascular, digital, effect of anemia and polycythemia on, 155*
 Bronchopulmonary disease, chronic, P wave in precordial leads in, 312*
Brucella melitensis endocarditis (Beebe and Meneely, Jr.), 788
 Bundle branch block, pathogenesis of, 315*
 right, incomplete, precordial electrocardiogram in (Barker and Valencia), 376

C

- Calcification as diagnostic sign of syphilitic aortitis (Thorner et al.), 641
 Capillary fragility and diabetic retinitis, 312*
 pressure, pulmonary, in animals estimated by venous and arterial catheterization, 449*
 strength tests in scurvy and their reactions to vitamin C and vitamin P therapy, 309*
 Cardiac abnormalities, value of routine fluorograms as measure for detecting, 798*
 dysfunction in hyperthyroidism (Griswold and Keating, Jr.), 813
 lesions in thiamine deficiency, 639*
 mechanism during anesthesia and operation in patients with congenital heart disease and cyanosis, 153*
 "myxoma," mitral stenosis and insufficiency produced by (Weinstein and Arata), 781
 output in man, Fick and dye injection methods of measuring, 314*
 septa, closure of defects of, 624*
 Cardiology, introduction to, 936 (B. Rev.)
 Cardiomegaly, hyperplastic and hypertrophic, infantile, idiopathic (congenital cardiac hypertrophy) (Race and Black-Schaffer), 501
 Cardiopatia congenita de la infancia, 936 (B. Rev.)
 Cardiovascular disease, relation of, to apoplexy (Hicks and Black), 528
 dynamics effect on, in normotensive conditions: drastic food restriction, 140*
 syphilis, penicillin therapy of (Flaum and Thomas), 361
 Caronamide and penicillin: serum levels in human beings, following multiple doses of drugs, 926*
 Carotid sinus reflex, hyperactive, subjective manifestations of, 452*
 syndrome, unusual features in case of (de Vries and Halpern), 295
 Case-taking, clinical. Guides for study of patients. History-taking and physical examination or semiology of disease in various systems, 940 (B. Ack'd)
 Catheterization, cardiac, in congenital heart disease, 938 (B. Rev.)
 venous and arterial, pulmonary capillary pressure in animals estimated by, 449*
 Causalgia following gunshot injuries of nerves, 138*
 III. General discussion, 638*
 Cavities of right side of human heart, observations on potential variations of (Kert and Hoobler), 97
 Cerebral arteriosclerosis, principal syndromes associated with, 471*
 Chest and heart, 156 (B. Rev.)
 Chicken, relationship of atheromatosis development in, to amount of cholesterol added to diet (Horlick and Katz), 336
 role of desiccated thyroid and potassium iodide in cholesterol-induced atherosclerosis of (Dauber et al.), 25
 Children, diffuse interstitial myocarditis in, 797*
 Chloroform, ventricular irregularities induced by sympathoadrenal discharge and, 930*
 Cholesterol, amount of, added to diet, relationship of atheromatosis development in chicken to (Horlick and Katz), 336
 and thiouracil feeding, production of arteriosclerosis in dogs by (Steiner et al.), 34
 atherosclerosis, experimental, in alloxan diabetes in rabbit, studies on mechanism of inhibition of, 460*
 of rabbits, mitotic activity in aortic lesions of, 635*
 blood and liver, relationship of, to atherosclerosis in different species, 463*
 serum, instability in coronary arteriosclerosis, significance of, 478*
 feeding, effects of restricted dietary intake and of cessation of; development and metamorphosis of cholesterol-induced atherosclerosis in chick, 465*
 plasma and liver, effect of graded dosages of iodide on, of normal, cholesterol-fed, and thyroidectomized rabbits, 479*
 tissue, distribution, thyroid activity and, 473*
 Cholesterol-induced atherosclerosis of chicken, role of desiccated thyroid and potassium iodide in (Dauber et al.), 25
 Choline, results of treatment of coronary arteriosclerosis with, 471*
 Circulation, collateral, (anatomical aspects), 940 (B. Ack'd)
 peripheral and epinephrine sensitization following sympathectomy, studies on (Deterling, Jr., and Essex), 248
 use of radioactive sodium in diagnosis of, in peripheral arteriosclerosis, 469*
 regional measurement of, by local clearance of radioactive sodium (Kety), 321

Circulation—Cont'd

- renal, blood pressure and, of dogs with experimental neurogenic hypertension, effects of repeated oral doses of quinine and quinidine on, 449*
- shock and allied forms of failure of, 939 (B. Rev.)
- time, aminophyllin determination of, 443*
- in man, use of acetylcholine in objective determination of, 796*
- Circulatory arrest, acute, from ventricular fibrillation for twenty-seven minutes with complete recovery, 142*
- failure, peripheral, acute, caused by acute venous thrombosis, 444*
- stasis, control of, by electrical stimulation of large muscle groups, 448*
- Claudication, intermittent, occurrence of paroxysmal hypertension in patients with (Malinow et al.), 702
- Clotting time, relationship between heparin and, 625*
- Coarctation, acquired, of aorta near diaphragm, 792*
- of aorta, 316*
- associated with patent ductus arteriosus, pathology of intrapulmonary arteries and arterioles in (Edwards et al.), 205
- at unusual sites (Bahnson et al.), 905
- congenital mitral stenosis and systemic right ventricle with associated pulmonary vascular changes frustrating surgical repair of patent ductus arteriosus and (Swan et al.), 914
- pathologic considerations in, 633*
- preoperative and postoperative studies of intraradial and intrafemoral pressures in patients with, 634*
- sounds and murmurs in (Wells et al.), 69
- studies on blood flow in extremities in cases of: determinations before and after excision of coarctate region, 634*
- surgical treatment of, 634*
- and physiopathology of, 623*
- value of roentgen diagnosis in, 633*
- Cold, ventricular fibrillation induced by (Hoff and Stansfield), 193
- Collateral circulation (anatomical aspects), 940 (B. Ack'd)
- Congestive heart failure, insensible loss of water in, 795*
- renal and circulatory factors in edema formation of, 928*
- Conjunctival vessels biomicroscopy of, in hypertension (Lack et al.), 654
- Contusion of heart, delayed death following (Kulka), 438
- Conus artery: third coronary artery (Schlesinger et al.), 823
- Coronary arteries, anomalies of, 632*
- improved method for visualizing, at post mortem (Scott et al.), 881
- of newborn infants, necrosis in (Gruenwald), 889
- polyarteritis nodosa of (Sinclair, Jr., and Nitsch), 898

Coronary—Cont'd

- arteriosclerosis, results of treatment of, with choline, 471*
- significance of blood serum cholesterol instability in, 478*
- artery disease, 938 (B. Rev.)
- high precordial leads in normal subject and in patients with, 632*
- third: conus artery (Schlesinger et al.), 823
- blood flow, oxygen consumption, and efficiency of left ventricle in man, measurement of (Bing et al.), 1
- dilator drugs, further studies on anti-fibrillatory action of, 627*
- disease, heart muscle and electrocardiogram in I. Survey of standards and methods for obtaining anatomic data requisite for clinicopathologic correlation (Sheldon and Sayen), 517
- II. Difficulties of description and illustration of ventricular muscle lesions, with method for graphic representation in myocardial map (Sayen and Sheldon), 688
- flow, relationship between reduction in, and appearance of electrocardiographic changes (Wégria et al.), 90
- heart disease, 935 (B. Rev.)
- sclerosis in infancy, 448*
- Curare, auricular flutter during administration of cyclopropane and (Mahanna et al.), 301
- Cyclopropane and curare, auricular flutter during administration of (Mahanna et al.), 301
- Cytochrome C: intravenous administration in man, 135*

D

- Death, delayed, following contusion of heart (Kulka), 438
- Deformations, mechanical, new method for electrical recording of, 933*
- Depressor reflexes from heart, 447
- Desoxycorticosterone acetate (DCA), potentiation of hypertensive effects of, by various sodium salts, 313*
- Detergents, intravenous, modification of experimental atherosclerosis by means of, 460*
- Dextrocardia, congenital, isolated, case of, without inversion of chambers and associated with left ventricular hypertrophy and anteroseptal myocardial infarction, 637*
- Diabetes mellitus, study of atherosclerosis in, 475*
- vascular problem in, 468*
- Diabetic retinitis, capillary fragility and, 312*
- Diaphragm, acquired coarctation of aorta near, 792*
- Diathermy, effects of, on flow of blood in extremities, 153*
- Dicumarol absorption, relationship of, to gastric free hydrochloric acid (Latona and LeFevre), 743

- Dicumarol—Cont'd
 effect of heparin and, on sludge formation, 445*
 on erythrocyte sedimentation rate in normal men, 933*
 effects of, on electrocardiogram, 145*
 in experimental myocardial infarction, 145*
 penicillin, streptomycin, and blood coagulation; thromboplastic properties of penicillin antibiotics, 148*
 Dicumarol-induced hypoprothrombinemia in rats, effect of vitamin K on, 930*
 Dietary intake, restricted, effects of, and of cessation of cholesterol feeding; development and metamorphosis of cholesterol-induced atherosclerosis in chick, 465*
 Digitalis glycoside, observations concerning effects of blood upon action of, 796*
 Digitoxin: its evaluation for initial digitalization of patient with congestive heart failure, 626*
 poisoning, 137*
 therapy, abnormal rapid rhythms associated with, 799*
 Diphtheria, electrocardiographic changes in, 137*
 Dipole, artificial, electrical axis of standard and thoracic leads obtained by means of, 632*
 Doublet theory and nature of extrinsic and intrinsic deflection, remarks on; clinical and experimental observations on precordial leads and on changing electrical field and spontaneous electrical axes, 636*
 Drugs, dilator, coronary, further studies on antifibrillatory action of, 627*
 Dye injection, Fick and, methods of measuring cardiac output in man, comparison of, 314*

E

- Edema formation of congestive heart failure, renal and circulatory factors in, 928*
 role of sodium in production of, 318*
 Electric shock and auricular fibrillation, 636*
 Electrical axis, mean, of heart, device for measuring (Topp and Rosenbaum), 130
 of standard and thoracic leads obtained by means of artificial dipole, 632*
 field, changing, and spontaneous electrical axes, clinical and experimental observations on precordial leads and on; remarks on doublet theory and nature of extrinsic and intrinsic deflection, 636*
 recording of mechanical deformations, new method for, 933*
 stimulation of large muscle groups, control of circulatory stasis by, 448*
 Electrocardiogram, alterations of radial or brachial intra-arterial blood pressure and of, induced by tilting, 144*

- Electrocardiogram—Cont'd
 effect of Dicumarol on, 145*
 heart muscle and, in coronary disease. I.
 Survey of standards and methods for obtaining anatomic data requisite for clinicopathologic correlation (Sheldon and Sayen), 517
 II. Difficulties of description and illustration of ventricular muscle lesions with method for graphic representation in myocardial map (Sayen and Sheldon), 688
 normal unipolar precordial and limb lead (Sokolow and Friedlander), 665
 precordial, in incomplete right bundle branch block (Barker and Valencia), 376
 nature of, 798*
 variability of, in normal young men (Simonsen et al.), 407
 Electrocardiograms, abnormal, in absence of demonstrable heart disease, 149*
 esophageal, evaluation of, in diagnosis of healed posterior myocardial infarction, 794*
 of unusual pattern in patient with anomalous auriculoventricular excitation (Roth and Doff), 614
 Electrocardiographic and pathologic findings in posterior infarction, correlation of (V) (Myers et al.), 547
 posterolateral infarction, correlation of (VI) (Myers et al.), 837
 changes in diphtheria, 137*
 relationship between reduction in coronary flow and appearance of (Wégria et al.) 90
 serial, in young adults with acute rheumatic fever, 152*
 correlation: roentgen cardiac kymography, 311*
 manifestations of potassium intoxication, 934*
 Electrocardiography, atlas of, 937 (B. Rev.)
 clinical, some supplementary leads in, 940 (B. Ack'd)
 direct, of human heart and intrathoracic electrocardiography, 936 (B. Rev.)
 primer of, 940 (B. Rev.)
 Electrophoretic pattern of serum protein, simultaneous studies on serum lipids and, in man: (I) action of inositol and other substances, 467*
 patterns in blood plasma and serum in normal children (V); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
 of blood plasma and serum in rheumatic children (VI); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
 Embolism, air, arterial (Durant et al.), 481
 after penicillin-oil-beeswax, 143*
 aortic, 925*
 pulmonary, venous thrombosis and, 639*
 without infarction, 450*

- Embolus, pulmonary, treatment of, by stellate block, 151*
 saddle, of aorta; report of successful embolectomy, 139*
- Endocarditis, bacterial, subacute, 935 (B. Rev.)
 due to *Hemophilus parainfluenzae*, 140*
 penicillin treatment of, 925*
 report of case of reinfection, 927*
 (*Streptococcus fecalis*), recovery from (Hein and Berg), 433
Brucella melitensis (Beebe and Meneely, Jr.), 788
 enterococcal, 147*
 gonococcal, penicillin therapy of (Dorset et al.), 610
 malignant, acute, from pneumococcus, 635*
Pseudomonas septicemia and, 137*
- Enterococcal endocarditis, 147*
- Epinephrine, intracardiac, effect of: heart in terminal state, 799*
 sensitization, studies on peripheral circulation and, following sympathectomy (Deterling, Jr., and Essex), 248
 shock, pheochromocytoma with symptoms of, 315*
- Erythrocyte sedimentation rate in normal men, effect of Dicumarol on, 933*
- Esophageal electrocardiograms, evaluation of, in diagnosis of healed posterior myocardial infarction, 794*
- Estrogens, effect of, upon partition of serum lipids in female patients, 472*
- Excitation, auriculoventricular, anomalous, electrocardiograms of unusual pattern in patient with (Roth and Doff), 614
- Extremity, lower, some technical considerations in arteriographic examination of, 793*
- F**
- Fat absorption and atherosclerosis; theory on development of atherosclerosis with ageing, 472*
 deposition, further studies on action of antilipinogen in preventing, 465*
 tolerance curves in rat and rabbit using I^{131} , 479*
 tests in coronary thrombosis, 477*
- Fibrillation, auricular, electric shock and, 636*
 role of anemia in experimental production of heart block and, in dog (Horlick and Surtshin), 716
 ventricular, acute circulatory arrest from, for twenty-seven minutes with complete recovery, 142*
 induced by cold (Hoff and Stansfield), 193
 paroxysmal, with recovery, 308*
- Fick and dye injection methods of measuring cardiac output in man, 314*
- Finger capillaries in schizophrenia and manic-depressive psychoses, studies of, 145*
- Fistula, arteriovenous, pulmonary, hereditary hemorrhagic telangiectasis associated with, in two members of family, 799*
- Fluorocardiography, studies of: tracings of left ventricle in myocardial infarction, 308*
- Fluorograms, routine, value of, as measure for detecting cardiac abnormalities, 798*
- Flutter, auricular, during administration of cyclopropane and curare (Mahanna et al.), 301
- Food restriction, drastic effect on cardiovascular dynamics in normotensive and hypertensive conditions, 140*
- Friedreich's ataxia, myocarditis and (Hejtmancik et al.), 757
- G**
- Glomerular obsolescence in arteriosclerosis; identity and significance, 475*
- Glycosides, cardiac, effects of, upon dynamics of circulation in congestive heart failure, 155*
- Gonococcal endocarditis, penicillin therapy of (Dorset et al.), 610
- Gunshot injuries of nerves, causalgia following, 138*
- H**
- Hamster as experimental animal for study of atheromatosis, 474*
- Heart block and auricular fibrillation in dog, role of anemia in experimental production of (Horlick and Surtshin), 716
 complete, congenital, complicating pregnancy, 146*
 in osteitis deformans, 316*
 influence of vagal activity on (Messer et al.), 732
 ventricular complexes in, 317*
 chest and, 156 (B. Rev.)
 delayed death following contusion of (Kulka), 438
 depressor reflexes from, 447*
 device for measuring mean electrical axis of heart (Topp and Rosenbaum), 130
 disease, congenital, cardiac catheterization in, 938 (B. Rev.)
 coronary, 935 (B. Rev.)
 demonstrable, abnormal electrocardiograms in absence of, 149*
 hoarseness in, 137*
 statistical studies of. I. Important factors in heart disease mortality trends, 445*
 treatment of, 935 (B. Rev.)
 variation of blood pressure and, with age, and correlation of blood pressure with height and weight, 148*
- diseases, childhood mortality from rheumatic fever and, 307*
- failure, congestive, effects of cardiac glycosides upon dynamics of circulation in, 155*
 insensible loss of water in, 795*
 its evaluation for initial digitalization of patient with: digitoxin, 626*

- Heart failure—Cont'd
 renal and circulatory factors in edema formation of, 928*
 fetal, human, study of specialized heart tissue at various stages of development of, 148*
 herniation of, 925*
 human, direct electrocardiography of, and intrathoracic electrocardiography, 936 (B. Rev.)
 observations on potential variations of cavities of right side of (Kert and Hoobler), 97
 in terminal state: effect of intracardiac epinephrine, 799*
 massive hypertrophy of, with special reference to Bernheim's syndrome, 794*
 muscle and electrocardiogram in coronary disease. I. Survey of standards and methods for obtaining anatomic data requisite for clinicopathologic correlation (Sheldon and Saijen), 517
 II. Difficulties of description and illustration of ventricular muscle lesions, with method for graphic representation in myocardial map (Saijen and Sheldon), 688
 infarcted, histology of, 473*
 mammalian, regenerative capacity of, 317*
 primary amyloidosis of (Hulbert and Meyer), 604
 revascularization of, 624*
 sarcoidosis involving, in case of sudden death, 638*
 spontaneous rupture of, due to myocardial infarction, 797*
 tissue, specialized, study of, at various stages of development of human fetal heart, 148*
- Hemangioma, pulmonary, with pulmonary artery-aortic septal defect (Erf et al.), 766
- Hematocrit, observations on estimate of circulating red blood cell volume in man given by T 1824 and, with special reference to uncorrected dye loss from circulation, 631*
- Hemophilus parainfluenzae*, subacute bacterial endocarditis due to, 140*
- Heparin and clotting time, relationship between, 625*
- and Dicumarol, effect of, on sludge formation, 445*
- Hepatic blood flow and splanchnic oxygen consumption in heart failure, estimation of, 306*
- Herniation of heart, 925*
- Herzens, Röntgendiagnostik des, und der grossen Gefasse, 937 (B. Rev.)
- Hexosamine levels, plasma, in acute rheumatic fever (Rosenberg and Schloss), 872
- Hoarseness in heart disease, 137*
- Hormonal factors, some lipotropic and, effects of; studies on spontaneous and cholesterol-induced atherosclerosis and lipid metabolism in chick, 466*
- Hyaline material in arteriosclerosis of kidney, nature of, 470*
- Hydrochloric acid, gastric free, relationship of Dicumarol absorption to (LaTona and LeFevre), 743
- Hyperplastic and hypertrophic cardiomegaly, infantile idiopathic, (congenital cardiac hypertrophy) (Race and Black-Schaffer), 501
- Hypertension and unilateral renal disorder, nephrectomy in, 629*
 arterial, effect of tetraethylammonium in, 934*
 intramedullary section of vasomotor pathways as treatment of, 447*
 biomicroscopy of conjunctival vessels in (Lack et al.), 654
 caused by unilateral kidney disease, 138*
 effect of sodium chloride depletion on blood pressure and tetraethylammonium chloride response in, 928*
 essential, surgical treatment of. IV. Case selection and technique as influencing results, 638*
 experimental, vascular lesions in, 464*
 hazards of thiocyanate therapy in, 627*
 human parabiologic pygopus twins with hypertension: report of case with clinical, psychologic, and endocrinologic observations, 792*
 lesions in elastic arteries associated with, 310*
 neurogenic, experimental, effects of repeated oral doses of quinine and quinidine on blood pressure and renal circulation of dogs with, 449*
 paroxysmal, associated with tabes dorsalis, 797*
 occurrence of, in patients with intermittent claudication (Malinow et al.), 702
 renal, malignant, experimental, effect of crude renal extracts and purified renin on vascular lesions in, 478*
 origin of, 157 (B. Rev.)
- Hypertensive effects of desoxycorticosterone acetate (DCA), potentiation of, by various sodium salts, 313*
- patient, water tolerance of; its relation to operability (de Takats and Fowler), 234
- patients, normal and, effects of adrenalin in, in relation to mechanism of sustained pressure elevations, 136*
 on occurrence of renin in blood of (Mylon and Freedman), 509
- Hyperthyroidism, cardiac dysfunction in (Griswold and Keating, Jr.), 813
- Hypertrophic cardiomegaly, idiopathic infantile hyperplastic and (congenital cardiac hypertrophy) (Race and Black-Schaffer), 501
- Hypertrophy, cardiac, question of, in residents of high altitudes, 139*
 massive, of heart with special reference to Bernheim's syndrome, 794*
 ventricular, left, and antero-septal myocardial infarction, case of isolated congenital dextrocardia without inversion of chambers and associated with, 637*
 right, ventricular complex in, as obtained by unipolar precordial and limb leads (Sokolow and Lyon), 273

- Hypnosis and venous pressure, 309*
- Hypocalcemia and hypopotassemia, differentiation of changes in Q-T interval in (Ernstene and Proudfit), 260
- Hypopotassemia, differentiation of changes in Q-T interval in hypocalcemia and (Ernstene and Proudfit), 260
- Hypoprothrombinemia, Dicumarol-induced, in rats, effect of vitamin K on, 930*
- Hypothermal injury, histologic sequences of degeneration and repair of rabbit aorta following, 464*
- I
- I¹³¹, fat tolerance curves in rat and rabbit using, 479*
- Infancia, cardiopatia congenita de la, 936 (B. Rev.)
- Infants, newborn and young, isolated myocarditis in (Lind and Hultquist), 123
- necrosis in coronary arteries of (Gruenwald), 889
- Infarction, hemorrhagic, of spinal cord and complete paraplegia, dissecting aneurysm of aorta with (Scott and Sancetta), 747
- myocardial, acute, effect of anticoagulants on incidence of thromboembolic complications in, 636*
- anteroseptal, case of isolated congenital dextrocardia without inversion of chambers and associated with left ventricular hypertrophy and, 637*
- coronary occlusion and, found post mortem at Massachusetts General Hospital during twenty-year period from 1926 to 1945 inclusive, note on, 451*
- experimental, Dicumarol in, 145*
- immediate sequelae of; their relation to prognosis, 136*
- plasma and blood infusion following (Sampson and Singer), 54
- posterior, healed, evaluation of esophageal electrocardiograms in diagnosis of, 794*
- prognosis in. I. Prognosis after acute stage, 635*
- spontaneous rupture of heart due to, 797*
- tracings of left ventricle in: studies of fluorocardiography, 308*
- posterior, correlation of electrocardiographic and pathologic findings in (Myers et al.), 547
- posterolateral, correlation of electrocardiographic and pathologic findings in (VI) (Myers et al.), 837
- pulmonary embolism without, 450*
- Inositol and other substances, action of (I): simultaneous studies on serum lipids and electrophoretic pattern of serum protein in man, 467*
- Interatrial septal defect (Cosby and Griffith), 80
- Internal diseases, thrombosis as complication of, 311*
- medicine, fundamentals of, 939 (B. Rev.)
- Intracardiac epinephrine, effect of: heart in terminal state, 799*
- shunts, ventricular outputs, and pulmonary pressure gradient, study of; atrial septal defect (Hickam), 801
- Intrapulmonary arteries and arterioles in coarctation of aorta associated with patent ductus arteriosus, pathology of (Edwards et al.), 205
- Intrathoracic electrocardiography, direct electrocardiography of human heart and, 936 (B. Rev.)
- operations, anoxia during, 628*
- Intravenous detergents, modification of experimental atherosclerosis by means of, 460*
- Iodide, effect of graded dosages of, on plasma and liver cholesterol of normal, cholesterol-fed, and thyroidectomized rabbits, 479*
- K
- 7-Ketocholesterol in serum, method for estimation of, 474*
- Kidney disease, unilateral, hypertension caused by, 138*
- nature of hyaline material in arteriosclerosis of, 470*
- Kymography, cardiac, roentgen: electrocardiographic correlation, 311*
- L
- Lead, limb, normal unipolar precordial and, electrocardiogram (Sokolow and Friedlander), 665
- Leads, limb, unipolar precordial and, ventricular complex in right ventricular hypertrophy as obtained by (Sokolow and Lyon), 273
- precordial, clinical and experimental observations on, and on changing electrical field and the spontaneous electrical axes; remarks on doublet theory and nature of extrinsic and intrinsic deflection, 636*
- high, in normal subjects and in patients with coronary artery disease, 632*
- P wave in, in chronic bronchopulmonary disease, 312*
- position of (Rosenburg and Agress), 593
- standard and thoracic, electrical axis of, obtained by means of artificial dipole, 632*
- supplementary, some, in clinical electrocardiography, 940 (B. Ack'd)
- Libman-Sacks syndrome, 309*
- Limb lead, normal unipolar precordial and, electrocardiogram (Sokolow and Friedlander), 665
- leads, unipolar precordial and, ventricular complex in right ventricular hypertrophy as obtained by (Sokolow and Lyon), 273
- Lipid metabolism, studies on spontaneous and cholesterol-induced atherosclerosis and, in chick; effects of some lipotropic and hormonal factors, 466*

- Lipotropic and hormonal factor, some effects of; studies on spontaneous and cholesterol-induced atherosclerosis and lipid metabolism in chick, 466*
- Liver, blood and, cholesterol, relationship of, to atherosclerosis in different species, 463*
- plasma and, cholesterol, effect of graded dosages of iodide on, of normal, cholesterol-fed, and thyroidectomized rabbits, 479*
- Lung, arteriovenous aneurysm of, 446*
- fistula of, 315*
- Lungs, experimental approach to problem of increasing blood supply to, 446*

M

- Manic-depressive psychoses, studies of finger capillaries in schizophrenia and, 145*
- Meals, case of angina pectoris precipitated chiefly by tobacco smoking and (Ahn and G'hle), 775
- Mediastinitis anterior chronica, 629*
- Medionecrosis of aorta, 639*
- Men, young, normal, variability of electrocardiogram in (Simonson et al.), 407
- Metabolic studies in coronary thrombosis, 477*
- Metabolism and excretion of salicylate, effect of para-aminobenzoic acid on, 929*
- Methemoglobin-tagged cells, measurement of circulating red cell volume with, 314*
- Mitotic activity in aortic lesions of experimental cholesterol atherosclerosis of rabbits, 635*
- Mitral stenosis and insufficiency produced by cardiac "myxoma" (Weinstein and Arata), 781
- congenital, and systemic right ventricle with associated pulmonary vascular changes frustrating surgical repair of patent ductus arteriosus and coarctation of aorta (Swan et al.), 914
- experimental study of pulmonary-azygos venous anastomosis (Swan), 367
- (Lutembacher's syndrome), familial interauricular septal defect with, 795*
- surgical treatment of; valvuloplasty, 932*
- Murmurs, sounds and, in coarctation of aorta (Wells et al.), 69
- Muscle, heart, and electrocardiogram in coronary disease. I. Survey of standards and methods for obtaining anatomic data requisite for clinicopathologic correlation (Sheldon and Saijen), 517
- II. Difficulties of description and illustration of ventricular muscle lesions, with method for graphic representation in myocardial map (Saijen and Sheldon), 688
- infarcted, histology of, 473*
- Myasthenia gravis, effect of injection of acetylcholine into brachial artery of normal subjects and patients with, 629*

- Myocardial changes in poliomyelitis, 637*
- infarction, acute, effect of anticoagulants on incidence of thromboembolic complications in, 636*
- immediate sequelae of; their relationship to prognosis, 136*
- plasma and blood infusion following (Sampson and Singer), 54
- posterior, healed, evaluation of esophageal electrocardiograms in diagnosis of, 794*
- prognosis in. I. Prognosis after acute stage, 635*
- spontaneous rupture of heart due to, 797*
- map, difficulties of description and illustration of ventricular muscle lesions, with method for graphic representation in (II); heart muscle and electrocardiogram in coronary disease (Saijen and Sheldon), 688
- Myocarditis and Friedreich's ataxia (Hejtmancik et al.), 757
- interstitial, diffuse, in children, 797*
- isolated (Fielders), 153*
- in newborn and young infants (Lind and Hultquist), 123
- Myoglobin and its occurrence in man, on, 940 (B. Rev.)
- "Myxoma," cardiac, mitral stenosis and insufficiency produced by (Weinstein and Arata), 781

N

- Nail changes in functional and organic arterial disease, 443*
- Necrosis in coronary arteries of newborn infants (Gruenwald), 889
- Nephrectomy in hypertension and unilateral renal disorder, 629*

O

- Obliterative disease of peripheral arteries, new treatment for relief of, 924*
- Occlusion, arterial, acute, arterectomy in treatment of intractable pain following recovery from (Freeman et al.), 329
- coronary, and myocardial infarction found post mortem at Massachusetts General Hospital during twenty-year period from 1926 to 1945 inclusive, note on, 451*
- Oligemic shock, on certain aspects of nature and treatment of (Page), 161
- Operability, its relation to; water tolerance of hypertensive patient (de Takats and Fowler), 234
- Operation, cardiac mechanism during anesthesia and, in patients with congenital heart disease and cyanosis, 153*
- Osteitis deformans, heart block in, 316*
- Ouabain, comparison of, with strophanthidin-3-acetate by intravenous injection in man, 307*
- Oxygen consumption, coronary blood flow, and efficiency of left ventricle in man, measurement of (Bing et al.), 1

- Oxygen consumption—Cont'd
 splanchnic, estimation of hepatic blood flow and, in heart failure, 306*
 therapy, effect of, on electrical sequence of events in cardiac cycle in children with acute rheumatic carditis, 150*
 in acute rheumatic carditis in children, 150*
- Oxyhemograph, control of anoxemia during surgical anesthesia with aid of, 623*
- P
- P wave in precordial leads in chronic bronchopulmonary disease, 312*
- Pain, intractable, following recovery from acute arterial occlusion, arterectomy in treatment of (Freeman et al.), 329
- Palmar arch, occupational aneurysm of, 147*
- Paraplegia, complete, dissecting aneurysm of aorta with hemorrhagic infarction of spinal cord and (Scott and Sancetta), 747
- Para-aminobenzoic acid, effect of, on metabolism and excretion of salicylate, 929*
- Paroxysmal hypertension, occurrence of, in patients with intermittent claudication (Malinow et al.), 702
- Patent ductus arteriosus and coarctation of aorta, congenital mitral stenosis and systemic right ventricle with associated pulmonary vascular changes frustrating surgical repair of (Swan et al.), 914
 pathology of intrapulmonary arteries and arterioles in coarctation of aorta associated with (Edwards et al.), 205
 prognosis of, in fifty-four nonoperated cases, 636*
- Penicillin, Caronamide and: serum levels in human beings, following multiple doses of drugs, 926*
 effect of tonsillectomy and administration of, on rheumatic and nonrheumatic fever patients, studies on rheumatic fever; observations on tonsillar carriers of hemolytic streptococci, 306*
 streptomycin, Dicumarol, and blood coagulation; thromboplastic properties of penicillin antibiotics, 148*
 therapy of cardiovascular syphilis (Flaum and Thomas), 361
 of gonococcal endocarditis (Dorset et al.), 619
 treatment of subacute bacterial endocarditis, 925*
- Penicillin-oil-beeswax, embolism after, 143*
- Periarteritis nodosa, 631*
- Pericarditis, constrictive, chronic, 630*
 tuberculous, 317*
- Peripheral arteries, new treatment for relief of obliterative disease of, 924*
 arteriosclerosis, use of radioactive sodium in diagnosis of peripheral circulation in, 469*
- Peripheral—Cont'd
 circulation and epinephrine sensitization following sympathectomy, studies on (Deterling, Jr., and Essex), 248
 circulatory failure, acute, caused by acute venous thrombosis, 444*
 resistance, local, asystolic arterial pressure gradient as measure of, 449*
- Pheochromocytoma, 154*
 use of tetraethylammonium bromide as diagnostic test for, 924*
 with symptoms of epinephrine shock, 315*
- Phonocardiography, modern, 307*
- Pituitary insufficiency, anterior, (panhypopituitarism—Simmonds' disease), pituitary myxedema and congestive heart failure (myxedema heart): report of case and findings at necropsy, 452*
- Plasma and blood infusion following myocardial infarction (Sampson and Singer), 54
 and liver cholesterol, effect of graded dosages of iodide on, of normal, cholesterol-fed, and thyroidectomized rabbits, 479*
 and serum, blood, in normal children, electrophoretic patterns in (V); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
 in rheumatic children, electrophoretic patterns of (VI); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
 hexosamine levels in acute rheumatic fever (Rosenberg and Schloss), 872
- Platelet clumping, increased, in thromboembolic disease, 794*
- Pneumococcus, acute malignant endocarditis from, 635*
- Poliomyelitis, myocardial changes in, 637*
- Polyarteritis nodosa of coronary arteries (Sinclair, Jr., and Nitsch), 898
- Polycythemia, effect of anemia and, of digital intravascular blood viscosity, 155*
- Post-tachycardia syndrome, clinical and anatomical study of, 313*
- Potassium and sodium, distribution of, between serum and certain extracellular fluids in man, 315*
 intoxication, electrocardiographic manifestations of, 934*
 iodide, role of desiccated thyroid and, in cholesterol-induced atherosclerosis of chicken (Dauber et al.), 25
- Precordial electrocardiogram in incomplete right bundle branch block (Barker and Valencia), 376
 nature of, 798*
 leads, high, in normal subjects and in patients with coronary artery disease, 632*
 position of (Rosenburg and Agress), 593
 unipolar, and limb leads, ventricular complex in right ventricular hypertrophy as obtained by (Sokolow and Lyon), 273

- Precordial unipolar—Cont'd
normal, and limb lead electrocardiogram (Sokolow and Friedlander), 665
- Pregnancy, congenital complete heart block complicating, 146*
toxemic, normal and, evaluation of neurogenic and humoral factors in blood pressure maintenance in, using tetraethylammonium chloride, 927*
- Pregnant women, normal, duration of Q-T interval in (Benjamin), 119
- Pressure, arterial, pulmonary (Rodbard et al.), 863
gradient, pulmonary, study of intracardiac shunts, ventricular outputs, and; atrial septal defect (Hickam), 801
- Pressures, intraradial and intrafemoral, preoperative and postoperative studies of, in patients with coarctation of aorta, 634*
venous, in children in health and disease, 931*
- Pseudomonas septicemia and endocarditis, 137*
- Pulmonary arterial pressure (Rodbard et al.), 863
capillary pressure in animals estimated by venous and arterial catheterization, 449*
embolism, venous thrombosis and, 639*
pressure gradient, study of intracardiac shunts, ventricular outputs, and; atrial septal defect (Hickam), 801
stenosis, diagnosis of, by angiocardiology, 930*
vascular changes, associated, frustrating surgical repair of patent ductus arteriosus and coarctation of aorta, congenital mitral stenosis and systemic right ventricle with (Swan et al.), 914
vessels, anomalous, 628*
- Pulmonary-azygos venous anastomosis, experimental study of: mitral stenosis (Swan), 367
- Purpuric conditions, inconstancy and variability of vascular fragility test even in, 624*
- Pygopagus, human parabiote, twins with hypertension: report of case with clinical, psychologic, and endocrinologic observations, 792*
- Pyrogen test, standardized, ageing as factor in renal hemodynamic response to, 476*
- Q
- Q-T interval, duration of, in normal pregnant women (Benjamin), 119
in hypocalcemia and hypopotassemia, differentiation of changes in (Ernstene and Proudfit), 260
in rheumatic fever, study of (Pokress and Goldberger), 423
- Quinidine, effects of repeated oral doses of quinine and, on blood pressure and renal circulation of dogs with experimental neurogenic hypertension, 449*

- Quinine and quinidine, effects of repeated oral doses of, on blood pressure and renal circulation of dogs with experimental neurogenic hypertension, 449*

R

- Radioactive sodium, measurement of regional circulation by local clearance of (Kety), 321
rate of flow of venous blood in legs measured with, 932*
- Radiocardiography: new method for studying blood flow through chambers of heart in human beings, 445*
- Red blood cell volume, comparison of results of measurements of, by direct and indirect technique, 798*
cell volume, circulating, effect of administration of adrenaline on, 798*
measurement of with methemoglobin-tagged cells, 314*
- Renal disorder, unilateral, nephrectomy in hypertension and, 629*
extracts, crude, and purified renin, effect of, on vascular lesions in experimental malignant renal hypertension, 478*
hemodynamic response to standardized pyrogen test, ageing as factor in, 476*
- Renin, on occurrence of, in blood of hypertensive patients (Mylon and Freedman), 509
purified, effect of crude renal extracts and, on vascular lesions in experimental malignant renal hypertension, 478*
- Revascularization of heart, 624*
- Rheumatic carditis, acute, effect of oxygen therapy on electrical sequence of events in cardiac cycle in children with, 150*
in children, oxygen therapy in, 150*
fever, acute, plasma hexosamine levels in (Rosenberg and Schloss) 872
serial electrocardiographic changes in young adults with, 152*
and heart diseases, childhood mortality from, 307*
immunologic and biochemical studies in infants and children with special reference to. I. Role of genetic susceptibility, 444*
- V. Electrophoretic patterns in blood plasma and serum in normal children, 931*
- VI. Electrophoretic patterns of blood plasma and serum in rheumatic children, 931*
- longevity in: based on experience of 1,042 children observed over period of thirty years, 926*
pathogenesis of, 450*
studies on; observations on tonsillar carriers of hemolytic streptococci: effect of tonsillectomy and administration of penicillin on rheumatic and nonrheumatic fever patients, 306*

- Rheumatic fever—Cont'd
 study of Q-T interval in (Pokress and Goldberger), 423
 patients who served in Armed Forces, 1942-46, experience of, 135*
- Rhythm, alternating nodal and sinus, in case of situs viscerum inversus, 631*
- Rhythms, rapid, abnormal, associated with digitoxin therapy, 799*
- Rice diet, effect of low sodium diet and, on arterial blood pressure, 934*
- Roentgen diagnosis in coarctation of aorta, value of, 633*
- Röntgendiagnostik des Herzens und der grossen Gefässe, 937 (B. Rev.)
- S
- Salicylate, effect of sodium bicarbonate on renal excretion of, 146*
 excretion of, effect of para-aminobenzoic acid on metabolism and, 929*
- Sarcoidosis involving heart in case of sudden death, 638*
- Scalenus anticus syndrome treated by surgery and skeletal traction, 150*
- Schizophrenia and manic-depressive psychoses, studies of finger capillaries in, 145*
- Sclerosis, coronary, in chickens, etiology of, 466*
 in infancy, 448*
- Scurvy, capillary strength tests in, and their reactions to vitamin C and vitamin P therapy, 309*
- Semiology, history-taking and physical examination or, of diseases in various systems. Clinical case-taking. Guides for study of patients, 940 (B. Ack'd)
- Septal defect, artery-aortic, pulmonary, pulmonary hemangioma with (Erf et al.), 766
 atrial; study of intracardiac shunts, ventricular outputs, and pulmonary pressure gradient (Hickam), 801
 interauricular, familial, with mitral stenosis (Lutembacher's syndrome), 75*
 interatrial, defect (Cosby and Griffith), 80
- Septicemia, *Pseudomonas*, and endocarditis, 137*
- Septum, atrial, cause and effects of flow through defects of (Hull), 350
- Serotonin, crystalline, 445*
- Serum, blood plasma and, in normal children, electrophoretic patterns in (V); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
 in rheumatic children, electrophoretic patterns of (VI); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 931*
 disease in rabbits, effect of sodium salicylate upon, 143*
 levels in human beings, following multiple doses of drugs: Caronamide and penicillin, 926*
- Serum—Cont'd
 lipids and electrophoretic pattern of serum protein in man, simultaneous studies on: (1) action of inositol and other substances, 467*
 effect of estrogens upon partition of, in female patients, 472*
 in experimental canine arteriosclerosis, 462*
 method for estimation of 7-ketcholesterol in, 474*
- Shock and allied forms of failure of circulation, 939 (B. Rev.)
 oligemic, on certain aspects of nature and treatment of (Page), 161
- Shunts, intracardiac, ventricular outputs, and pulmonary pressure gradient, study of; atrial septal defect (Hickam), 801
- Silica content of aortic wall in arteriosclerosis, 476*
- Sinus, carotid, syndrome, unusual features in case of (de Vries and Halpern), 295
- Situs viscerum inversus, alternating nodal and sinus rhythm in case of, 631*
- Smoking, tobacco, and meals, case of angina pectoris precipitated chiefly by (Ahn and Göhle), 775
- Sodium bicarbonate, effect of, on renal excretion of salicylate, 146*
 chloride depletion, effect of, on blood pressure and tetraethylammonium chloride response in hypertension, 928*
 distribution of potassium and, between serum and certain extracellular fluids in man, 315*
 low, diet and rice diet, effect of, on arterial blood pressure, 934*
 radioactive, measurement of regional circulation by local clearance of (Kety), 321
 rate of flow of venous blood in legs measured with, 932*
 use of, in diagnosis of peripheral circulation in peripheral arteriosclerosis, 469*
 role of, in production of edema, 318*
 salicylate, effect of, upon serum disease in rabbits, 143*
- Sounds and murmurs in coarctation of aorta (Wells et al.), 69
- Spatial vectorcardiogram in man, observations on (Conway et al.), 537
- Spinal cord, hemorrhagic infarction of, and complete paraplegia, dissecting aneurysm of aorta with (Scott and Sancetta), 747
- Stellate block, treatment of pulmonary embolus by, 151*
- Stenosis, mitral, and insufficiency produced by cardiac "myxoma" (Weinstein and Arata), 781
 congenital, and systemic right ventricle with associated pulmonary vascular changes frustrating surgical repair of patent ductus arteriosus and coarctation of aorta (Swan et al.), 91

- Stenosis, mitral—Cont'd
 experimental study of pulmonary-azygos venous anastomosis (Swan), 367
 (Lutembacher's syndrome), familial interauricular septal defect with, 795*
 surgical treatment of; valvuloplasty, 932*
 pulmonic, congenital, surgical procedures employed and anatomical variations encountered in treatment of, 793*
- Streptomycin, penicillin, Dicumarol, and blood coagulation; thromboplastic properties of penicillin antibiotics, 148*
- Stroke volume, some factors in regulation of, 313*
- Strophanthidin-3-acetate, comparison of ouabain with, by intravenous injection in man, 307*
- Surgical procedures employed and anatomical variations encountered in treatment of congenital pulmonic stenosis, 793*
- Susceptibility, genic, role of (I); immunologic and biochemical studies in infants and children with special reference to rheumatic fever, 444*
- "Sustained pressor principle," observations on, in different animal species, 314*
- Sympathectomy, results of, and prognosis; thromboangiitis obliterans, 932*
 studies on peripheral circulation and epinephrine sensitization following (Deterling, Jr., and Essex), 248
- Sympathoadrenal discharge and chloroform, ventricular irregularities induced by, 930*
- Syphilis, cardiovascular, penicillin therapy of (Flaum and Thomas), 361
- Syphilitic aortitis, calcification as diagnostic sign of (Thorner et al.), 641
- T
- T 1824 and hematocrit, observations on estimate of circulating red blood cell volume in man given by, with special reference to uncorrected dye loss from circulation, 631*
 hematocrit method, comparison of estimates of circulating red blood cell volume given by Ashby marked red cell method and, in man, 630*
- Tabes dorsalis, paroxysmal hypertension associated with, 797*
- Tachycardia, auricular, paroxysmal, treatment of infant with, 444*
- Telangiectasis, hemorrhagic, hereditary, associated with pulmonary arteriovenous family fistula in two members of family, 799*
- Temperatures, body, varying, thermal gradients during, 925*
- Tetraethylammonium bromide, use of, as diagnostic test for pheochromocytoma, 924*
 chloride, evaluation of neurogenic and humoral factors in blood pressure maintenance in normal and toxemic pregnancy using, 927*
- Tetraethylammonium chloride—Cont'd
 response in hypertension, effect of sodium chloride depletion on blood pressure and, 928*
 effect of, in arterial hypertension, 934*
- Thermal gradients during varying body temperatures, 925*
- Thiamin deficiency, cardiac lesions in, 639*
- Thiocyanate therapy in hypertension, hazards of, 627*
- Thiouracil feeding, production of arteriosclerosis in dogs by cholesterol and (Steiner et al.), 34
- Thromboangiitis obliterans; results of sympathectomy and prognosis, 932*
- Thromboembolic complications in acute myocardial infarction, effect of anticoagulants on incidence of, 636*
 disease, increased platelet clumping in, 794*
- Thrombosis as complication of internal diseases, 311*
 coronary, fat tolerance tests in, 477*
 metabolic studies in, 477*
 venous, 638*
 acute, acute peripheral circulatory failure caused by, 444*
 and pulmonary embolism, 639*
- Thyroid activity and tissue cholesterol distribution, 473*
 desiccated, and potassium iodide, role of, in cholesterol-induced atherosclerosis of chicken (Dauber et al.), 25
- Thyroidectomized rabbits, normal, cholesterol-fed, and, effect of graded dosages of iodide on plasma and liver cholesterol of, 479*
- Thyroidectomy and viosterol feeding, vascular lesions in dog following, 463*
- Tilting, alterations of radial or brachial intra-arterial blood pressure and of electrocardiogram induced by, 144*
- Tissue, arterial, biology of, 461*
 cholesterol distribution, thyroid activity and, 473*
- Tobacco smoking and meals, case of angina pectoris precipitated chiefly by (Ahn and Göhle), 775
- Tonsillectomy and administration of penicillin, effect of, on rheumatic and non-rheumatic fever patients, studies on rheumatic fever: observations on tonsillar carriers of hemolytic streptococci, 306*
- Tuberculous pericarditis, 317*
- U
- Unipolar precordial and limb leads, ventricular complex in right ventricular hypertrophy as obtained by (Sokolow Lyon), 273
 normal, and limb lead electrocardiogram (Sokolow and Friedlander), 665
- V
- Vagal activity, influence of, on heart block (Messer et al.), 732
- Valvuloplasty; surgical treatment of mitral stenosis, 932*

- Vascular changes, pulmonary, associated, frustrating surgical repair of patent ductus arteriosus and coarctation of aorta, congenital mitral stenosis and systemic right ventricle with (Swan et al.), 914
- fragility test, inconstancy and variability of, even in purpuric conditions, 624*
- lesions in dog following thyroidectomy and viosterol feeding, 463*
- in experimental hypertension, 464*
- problem in diabetes mellitus, 468*
- Vectorcardiogram, spatial, in man, observations on (Conway et al.), 537
- Venous anastomosis, pulmonary-azygos, experimental study of: mitral stenosis (Swan), 367
- blood, rate of flow of, in legs measured with radioactive sodium, 932*
- pressure, hypnosis and, 309*
- pressures in children in health and disease, 931*
- thrombosis, 638*
- acute, acute peripheral circulatory failure caused by, 444*
- Ventricle, left, efficiency of, measurement of coronary blood flow, oxygen consumption, and, in man (Bing et al.), 1
- right, systemic, congenital mitral stenosis and, with associated pulmonary vascular changes frustrating surgical repair of patent ductus arteriosus and coarctation of aorta (Swan et al.), 914
- Ventricular complex in right ventricular hypertrophy as obtained by unipolar precordial and limb leads (Sokolow and Lyon), 273
- complexes in heart block, 317*
- fibrillation induced by cold (Hoff and Stansfield), 193
- paroxysmal, with recovery, 308*
- irregularities induced by sympathoadrenal discharge and chloroform, 930*
- muscle lesions, difficulties of description and illustration of, with method for graphic representation in myocardial map (II); heart muscle and electrocardiogram in coronary disease (Saijen and Sheldon), 688
- outputs, intracardiac shunts, and pulmonary pressure gradient, study of; atrial septal defect (Hickam), 801
- Viosterol feeding, vascular lesions in dog following thyroidectomy and, 463*
- Vitamin K, effect of, on Dicumarol-induced hypoprothrombinemia in rats, 930*

W

- Water, insensible loss of, in congestive heart failure, 795*
- tolerance of hypertensive patient; its relation to operability (de Takats and Fowler), 234
